

IDDT AFFILIATION CODE

DEMONSTRATING THE IMPACT OF INTEGRATED DUAL DISORDER TREATMENT IN THE STATE OF OHIO

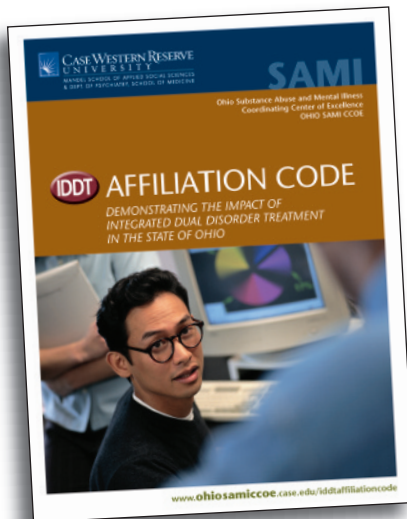

WHAT IS IT?

The Integrated Dual Disorder Treatment (IDDT) Affiliation Code is assigned to consumers receiving IDDT services who are enrolled in the State of Ohio's Multi-Agency Community Services Information System (MACSIS).

The IDDT Affiliation Code Initiative gives us the capacity to collect data and to examine indicators and outcomes systematically for IDDT consumers and to use this knowledge to inform and advance public policy, community service plans, and day-to-day service delivery locally and across the state.

Excerpted from the following free resource: IDDT Affiliation Code Initiative Partnership (2008). IDDT Affiliation Code Booklet. Cleveland: Center for Evidence-Based Practices, Case Western Reserve University.
